SUMMARY

Computer Science postgraduate (MSc) and full-stack developer with hands-on experience building and deploying production web applications. Proficient across the JavaScript stack (Node.js, Express, React) and modern frameworks like Astro, with a track record of shipping accessible, performant, user-focused products and integrating REST APIs, headless CMS, and automation workflows. Quick to learn new tools and effective in collaborative engineering teams.

PROFESSIONAL EXPERIENCE

Associate Software Development Engineer | RethinkingWeb (RTW) July 2025 - Present

- Built **Zuper**, a marketing website using **Astro**, **React**, and **Tailwind CSS**, developing reusable animation components and interactive UI, and optimizing performance for faster load times and responsiveness.
- Integrated **WordPress as a headless CMS** for Zuper to dynamically fetch and render blog and app-integration content, enabling non-technical teams to manage content independently.
- Built **Zylyn**, a full-stack web accessibility scanning tool that analyzes websites for WCAG compliance and generates accessibility scores and detailed violation reports; developed end to end with **Next.js**, **React**, **Tailwind CSS**, **Node.js**, **Express.js**, **MySQL**, and **REST APIs**, and deployed to production.
- Built client-facing automation, including an **AI-driven calling workflow** (Make.com, Retell AI) for outbound calls and an **open-source CRM** that captures leads from the website and Facebook via workflows, with in-CRM automation to streamline recurring client tasks.
- Developed and maintained multiple **WordPress sites**, including the Mill Plain Dental Center website, Shay and Company website improving responsive UI, theme customization, and usability.
- Collaborated with a senior developer and the wider team, using **Git** and **GitHub** for version control and code reviews within a structured development workflow.

Full-Stack Developer Intern | Engeniuspark Technologies Pvt Ltd (ESTPL) Jan 2025 - July 2025

- Developed and maintained the **Kondaji Chivda** e-commerce website with full-stack functionality using HTML, CSS, Bootstrap, JavaScript, Node.js, Express.js, and MySQL.
- Built and integrated **RESTful APIs** to enable seamless communication between front-end and back-end components.
- Strengthened front-end skills through training in **React.js**, gaining a solid grasp of component-based architecture.
- Worked across the full development cycle — from UI design to server-side logic and database connectivity — collaborating in an Agile team and using Git for version control.
